Dear Sir,

I refer to the consultation brief on the above subject please.

While the Government's efforts to ensure the supply of milk powder in Hong Kong is much appreciated, I would like to suggest that a mechanism should be developed so that an individual, if due to some justified reasons such as health reasons, can carry milk powder exceeding the specified amount out of Hong Kong. Subject to their respective implications, this may be pursued by allowing an individual (instead of only the specified companies) to apply for an export licence or to provide exemptions by legal / administrative means.

Thank you for your kind consideration. Please give me a call if any clarification is needed.

Regards,  
Winnie Sheh
